TABLE OF CONTENTS

Preface

xi

PART 1 Introduction to Economics

CHAPTER 1 ECONOMICS—THE SCIENCE OF CHOICE AND EXCHANGE	3
What? How? For Whom?	5
<i>Deciding What to Produce: Opportunity Cost</i>	5
<i>Deciding How to Produce: Efficiency and Entrepreneurship</i>	6
<i>Deciding Who Will Do Which Work: The Division of Labor</i>	10
<i>Deciding for Whom Goods will be Produced: Positive and Normative Economics</i>	12
Coordinating Economic Choices	14
<i>A Non-economic Example</i>	15
<i>Spontaneous Order in Markets</i>	15
<i>The Role of Hierarchy</i>	17
Economic Method	17
<i>Theories and Models</i>	18
<i>The Use of Graphs⁴</i>	19
<i>Theory and Evidence</i>	21
<i>Theories and Forecasts</i>	21
<i>Theory and Policy</i>	23
Summary	24
Key Terms	25
Problems and Topics for Discussion	25
Case for Discussion	26
End Notes	27
Appendix to Chapter 1: Working with Graphs	29

CHAPTER 2 SUPPLY AND DEMAND: THE BASICS	39
Law of Demand	40
<i>The Demand Curve</i>	41
<i>Shifts in the Demand Curve</i>	42
THE LAW OF Supply	47
<i>The Supply Curve</i>	47
<i>Shifts in the Supply Curve</i>	50
The Interaction of Market Supply and Demand: Market Mechanism	52
<i>Market Equilibrium</i>	53
<i>Equilibrium as Spontaneous Order</i>	53
<i>Shortages</i>	55
<i>Surpluses</i>	56
<i>Changes in Market Conditions: Outside Shocks to Market Mechanism)</i>	56
Price Floors and Ceilings: An Application	60
<i>Price Supports: The Market for Milk</i>	60
<i>Price Ceilings: The Case of Rent Control</i>	62
Summary	67
Key Terms	68
Problems and Topics for Discussion	68
Case for Discussion	69
End Notes	70

CHAPTER 3 SUPPLY, DEMAND, AND ELASTICITY	71
Elasticity Of Demand	72
<i>Price Elasticity of Demand</i>	72
<i>Calculating Elasticity of Demand</i>	74
<i>Varying- and Constant-Elasticity Demand Curves</i>	77
<i>Determinants of Elasticity of Demand</i>	78
<i>Income Elasticity of Demand</i>	80
<i>Cross-Elasticity of Demand</i>	81
<i>Price Elasticity of Supply</i>	81
Applications of Elasticity	83
<i>Elasticity and Tax Incidence</i>	83
<i>Elasticity and Prohibition</i>	87
Summary	90
Key Terms	91
Problems and Topics for Discussion	91
Case for Discussion	92
End Notes	93

PART 2 Macroeconomic Goals and Relationships

CHAPTER 4 IN SEARCH OF PROSPERITY AND STABILITY	97
Macroeconomics in the Long Run: Economic Growth	98
<i>Measuring Economic Growth</i>	99
<i>Sources of Economic Growth</i>	99
<i>The Benefits and Costs of Economic Growth</i>	100
Short-Run Macroeconomics and: The Business Cycle	103
<i>Phases of the Business Cycle</i>	104
<i>Employment and the Business Cycle</i>	105
Price Stability	112
<i>Short-Run Costs of Inflation</i>	112
<i>Long-Run Costs of Inflation</i>	114
Summary	116
Key Terms	117
Problems and Topics For Discussion	117
Case for Discussion	118
End Notes	119
<hr style="border: 1px solid black;"/>	
CHAPTER 5 THE CIRCULAR FLOW OF INCOME AND PRODUCT	121
The Circular Flow	122
<i>Gross Domestic Product and Gross Domestic Income</i>	123
<i>Components of GDP</i>	123
<i>Injections and Leakages</i>	124
The Determinants of Planned Expenditure	126
<i>Planned Versus Unplanned Expenditure</i>	126
<i>Consumption Expenditure</i>	129
<i>Planned Investment</i>	130
<i>Government Purchases</i>	131
<i>Net Exports</i>	132
Equilibrium in The Circular Flow	132
<i>An Expansion of Planned Expenditure</i>	132
<i>A Contraction of Planned Expenditure</i>	133
<i>The Multiplier Effect and the Business Cycle</i>	134
Summary	135
Key Terms	136
Problems and Topics For Discussion	136
Case for Discussion	137
End Notes	138

Appendix to Chapter 5: The Planned Expenditure Model	139
--	-----

CHAPTER 6 MEASURING ECONOMIC ACTIVITY	145
The National Income Accounts in Nominal Terms	146
<i>Gross Domestic Product</i>	146
<i>The Expenditure Approach to Measuring GDP</i>	148
<i>The Income Approach to Measuring Aggregate Economic Activity</i>	151
Measuring International Linkages	153
<i>The Current Account</i>	153
<i>The Capital and Financial Account</i>	154
<i>Relationship of the Accounts</i>	156
Measuring Real Income and the Price Level	157
<i>Real Gross Domestic Product and the Deflator</i>	157
<i>Producer Price Indexes</i>	159
<i>How Good are the National Income Accounts?</i>	159
Summary	164
Key Terms	164
Problems and Topics for Discussion	164
Case for Discussion	165
End Notes	166
Appendix to Chapter 6: Computation of Price Indexes	167

PART 3 Macroeconomics and Money

CHAPTER 7 MONEY AND THE BANKING SYSTEM	173
Money: What It Is and What It Does	174
<i>The Functions of Money</i>	174
<i>Money as a Liquid Asset</i>	175
<i>Measuring the Stock of Money</i>	175
<i>Why Money Matters</i>	178
The Banking System	180
<i>Types of Depository Institutions</i>	180
<i>The Banking Balance Sheet</i>	181
<i>The Central Bank</i>	183
Ensuring the Safety and Stability of the Banking System	186
<i>Risks of Banking</i>	186
<i>Policies to Ensure Safety and Soundness</i>	187
<i>International Banking</i>	189
Summary	191
Key Terms	191

Problems and Topics For Discussion	191
Case for Discussion	192
End Notes	193

CHAPTER 8 CENTRAL BANKING AND MONETARY POLICY	195
Determining the Quantity Money	196
<i>A Balance-Sheet View of Money</i>	196
<i>The Monetary Base</i>	197
<i>A Closer Look at Bank Reserves</i>	197
How Banks Create Money	199
<i>Limits to Banks' Ability to Create Money</i>	201
The Instruments of Monetary Policy	205
<i>Open Market Operations</i>	205
<i>The Discount Rate</i>	207
<i>Changes in Required-Reserve Ratios</i>	208
<i>Other Factors Affecting the Money Multiplier</i>	209
Central Banking in the International Economy	210
<i>The Structure of the Foreign-Exchange Market</i>	210
<i>Supply and Demand in the Foreign-Exchange Market</i>	212
<i>Central Bank Intervention in the Foreign-Exchange Market</i>	213
Summary	217
Key Terms	218
Problems and Topics for Discussion	218
Case for Discussion	219
End Notes	220

CHAPTER 9 MONEY AND INTEREST RATES	221
The Demand for Money	222
<i>The Demand for Money as a Stock</i>	222
<i>Money Demand and Nominal Income</i>	222
<i>Opportunity Cost and the Demand for Money</i>	223
<i>The Money Demand Curve</i>	224
Supply, Demand, and Interest Rates	226
<i>Equilibrium in the Monetary Sector (Equilibrium of Money Market)</i>	227
<i>Effects of a Change in the Money Supply</i>	228
<i>Effects of an Increase in Income</i>	229
<i>The Monetary Sector, Interest Rates, and Planned Expenditure</i>	230
<i>Monetary Policy Instruments and Targets</i>	232
Summary	235
Key Terms	236

Problems and Topics for Discussion	236
Case for Discussion	237
End Notes	238

CHAPTER 10 PRICES AND REAL OUTPUT IN THE SHORT RUN	239
The Aggregate Demand Curve	240
<i>Aggregate and Market Demand Curves</i>	240
<i>The Slope of the Aggregate Demand Curve</i>	242
<i>The Elasticity of Aggregate Demand</i>	244
<i>Shifts in the Aggregate Demand Curve</i>	245
The Aggregate Supply curve	248
<i>The Importance of Input Prices</i>	248
<i>Long-Run and Short-Run Aggregate Supply Curves</i>	249
<i>Shifts in the Short-Run Aggregate Supply Curve</i>	251
<i>Shifts in the Long-Run Aggregate Supply Curve</i>	254
The Interaction of Aggregate Supply and Demand in the Short Run	255
<i>Characteristics of Short- and Long-Run Equilibrium</i>	255
<i>Short-Run Effects of an Increase in Aggregate Demand</i>	257
<i>Transition to a New Long-Run Equilibrium</i>	257
<i>Effects of a Decrease in Aggregate Demand</i>	259
<i>Aggregate Supply, Demand, and the Business Cycle</i>	261
Summary	262
Key Terms	263
Problems and Topics for Discussion	263
Case for Discussion	264
End Notes	265

PART 4 Macroeconomic Policy

CHAPTER 11 FISCAL POLICY AND ECONOMIC STABILITY	269
The Theory of Fiscal Policy	270
<i>Using Government Purchases to Combat a Negative Output Gap</i>	270
<i>Using a Change in Taxes or Transfer Payments to Combat a Negative Output Gap</i>	272
<i>Fiscal Policy and Inflation</i>	274
<i>Automatic Fiscal Policy</i>	275
The Budget Process	277
<i>The Federal Budgetary System</i>	277
Fiscal Policy and the Federal Deficit	279
<i>Automatic Fiscal Policy: The Structural Versus Cyclical Deficit</i>	279

<i>Economic Priorities</i>	281
<i>International Comparisons</i>	283
<i>The Deficit as a Policy Issue</i>	283
<i>Reasons Not to Worry About the Deficit</i>	283
<i>Reasons to Worry About the Deficit</i>	285
Summary	287
Key Terms	287
Problems and Topics for Discussion	288
Case for Discussion	288
End Notes	289

CHAPTER 12 AN INTEGRATED VIEW OF MONETARY AND FISCAL POLICY	291
Short-Run Effects of Monetary Policy	292
Long-Run Effects and the Neutrality of Money	295
Money and Fiscal Policy	297
<i>The Crowding-Out Effect</i>	297
<i>Fiscal Policy in the Long Run</i>	299
<i>The Importance of the Fiscal-Monetary Policy Mix</i>	301
<i>Monetarism Versus Keynesianism: A Historical Note</i>	301
Summary	305
Key Terms	306
Problems and Topics for Discussion	306
Case for Discussion	306
End Notes	308

CHAPTER 13 POLICIES FOR PRICE STABILITY	309
Inflation and Deflation in the Aggregate Supply and Demand Model	311
<i>Demand-Side (Pull) Inflation</i>	311
<i>Supply-Side (Cost-Push) Inflation and Supply Shocks</i>	312
<i>Inflationary Expectations and Inflationary Recession</i>	315
<i>Deflation and Recession</i>	318
The Phillips Curve	321
<i>The Phillips Curve as a Policy Menu</i>	321
<i>The Phillips Curve and the Natural Rate of Unemployment</i>	323
<i>The Long-Run Phillips Curve (Monetarists' View)</i>	324
Strategies for Lasting Price Stability	325
<i>What Policy Instruments Are Available?</i>	326
<i>The Importance of Credibility</i>	328
<i>Inflation Targeting</i>	328
<i>Exchange-Rate Based Stabilization Policy</i>	330

<i>Problems with ERB Stabilization</i>	333
Summary	334
Key Terms	335
Problems and Topics for Discussion	335
Case for Discussion	336
End Notes	338

CHAPTER 14 ECONOMIC GROWTH, PRODUCTIVITY, AND SAVING

CHAPTER 14 ECONOMIC GROWTH, PRODUCTIVITY, AND SAVING	339
Economic Growth and Demand Management	340
<i>Demand Management as Inputs Grow</i>	341
<i>Demand Management and Productivity Growth</i>	345
Recent Trends in Economic Growth and Productivity	347
<i>Explaining the Productivity Slowdown and Its Reversals</i>	348
<i>International Productivity Trends</i>	349
<i>Measurement Problems</i>	350
Policies for Promoting Economic Growth and Saving	352
<i>Economic Growth and the Fiscal-Monetary Policy Mix</i>	352
<i>Growth and Saving</i>	353
<i>How Much Saving Is Enough?</i>	355
Summary	356
Key Terms	356
Problems and Topics for Discussion	356
Case for Discussion	357
End Notes	358
<i>Glossary</i>	359
<i>Index</i>	373

PREFACE

THE MOST RELIABLE constant of life in a market economy is constant change. Sitting down to work on this new edition of this textbook has brought many changes to my attention..

Some of them are trivial. One chapter mentioned some authors who were on the best-seller list at the time of the last edition—good books they wrote, but just as the market economy is in constant change, so is the publishing industry. Out they go, to be replaced by J.K. Rowling and Dan Brown.

Other changes are much more fundamental, such as the trend toward globalization of both the macro- and micro-economy. Professional economists will know that this trend is not really new. If one looks at the data, trends in imports and exports, integration of labor and financial markets, and global brand penetration started long ago. Yet, although statistically well established, these trends have clearly hit a new threshold of public awareness in the first decade of the 21st century. For that reason alone, a modern textbook must reflect the global nature of the economy.

One of the signs of its increased global outlook is the disappearance of a separate chapter on foreign exchange markets and international monetary policy. Because these topics are more important than ever, it is no longer appropriate to isolate them in the last chapter of the macroeconomics course, too easily skipped in the rush toward final exams. Instead, topics like the effects of exchange rates on aggregate demand and the relationship between price stability and exchange rate policy are now integrated directly into the various macro chapters that deal with related issues for the domestic economy. The result is a book that is both more up-to-date and more streamlined. Numerous globally-oriented cases and topics appear in the micro chapters as well.

One final change is in the textbook market itself. Earlier editions of this book reflected the college publishing world of the past: Fat, heavy volumes with fat, heavy price tags that, over time, came to be one of the most resented financial burdens of a college education. And students didn't even get their money's worth from those texts

of an earlier era. The technology of the day meant long lead times and the sheer costs of production meant substantial intervals between revisions, so that textbooks were often several years out of date before they hit the classroom. Things were even worse for students who, because of financial pressure, depended on lower-cost used copies of earlier editions. Happily, that model of publishing is now in retreat.

It is a great pleasure to me to see this new edition come out through Horizon Textbook Publishing. The advantages of working with a publisher who uses the latest technology to bring the book to market just a few months after final revisions are made makes the pleasure all the greater. I hope you, as a user of the book, will complete the cycle by providing me, as author, with your feedback so that your suggested changes can be quickly incorporated in future editions.

Acknowledgments

My first thanks must go to my long-time co-author, David E. Lindsey, with whom I worked on earlier editions of this text over a period of many years. During his years as Deputy Director of the Division of Monetary Affairs of the Board of Governors of the Federal Reserve System, David was able to find the ideal balance between the theory and practice of economics. Although he did not contribute directly to preparation of this new edition, his strong influence can still be seen in both the macroeconomic and microeconomic chapters.

Second, I would like to thank Kristin van Gaasbeck, Ph.D for her innovative work in updating data sources, news items, and many other elements for the new edition. Her work has made a big difference in keeping the content of the book fresh and up to date, and in bringing it to market faster than could ever have been done without her able contribution.

Finally, I thank the entire publishing and editorial staff of Horizon Textbook Publishing for introducing me to this great new concept in college publishing. I hope you, the user, benefit as much as I have.

EDWIN G. DOLAN
Lopez Island, Washington

Acknowledgments by Kishore G. Kulkarni

The last few months have been very exciting time of my life. I not only added my favorite ways of explaining concepts to this textbook, but also derived satisfaction in interacting with numerous colleagues and students who complimented on the earlier edition of this book. After making numerous changes to the original product created by Prof. Dolan, I am satisfied and confident that the book will be able to clarify macro concepts in the easiest possible way. This edition uses as little mathematics as is necessary, and gives abundant real world examples to make the concepts more applied and interesting.

I am very thankful to the wonderful staff of Horizon Textbook Publishing Company for making this project possible in such a short time. My special thanks to my wonderful wife who understood my absences from many family obligations when I was working on this project. I dedicate this edition to her cheerfulness and co-operation. Our daughters Lina and Aditi deserve appreciation for making life so worthwhile.

Several of my colleagues have already used this book for their classes, and many more are seriously considering adopting it in future semesters. Notable amongst them are: Debasri Mukherjee, Western Michigan University, Jesus Valencia, Slippery Rock University, Vani Kotcherlakota, University of Nebraska-Kearney, and Vijay Sharma, University of Colorado-Denver. I am grateful to all these individuals. Most of all, thanks to hundreds (and probably thousands) of my students who would attend classes and read these chapters. Teaching is an enjoyable exercise when students show enthusiasm to learn, and are willing to study. I invite all of you to send me comments by e-mail.

KISHORE G. KULKARNI,
Denver, Colorado. E-mail: kulkarnk@mscd.edu

Features of This Edition

- *State of the art pedagogy.* An abundance of case studies introduce and illustrate the subject matter of every chapter.
- *Integrated international economics.* As the world economy itself comes closer together, international economics must be more closely integrated into the principles course. Accordingly, topics in international economic theory and policy, ranging from balance of payments accounts to the foreign exchange operations of the Fed, are introduced in the chapters in which they occur naturally, rather than presented separately in a single chapter.

Supplements

Test Bank

The accompanying Test Bank contains over 2,000 questions in a variety of formats including multiple choice, true/false, and essay questions.

Instructor's Manual

The expanded Instructor's Manual contains material which can be easily included in lectures. The manual also includes all of its traditional elements, including instructional objectives, lecture notes, and suggestions.

Study Guide

The Study Guide has hands-on applications and self-testing programs. It is available in two versions, *Macroeconomics*, and *Microeconomics*. Students can gain an advantage by reinforcing their reading and lecture notes with the following study guide features:

- *Where You're Going*. The objectives and terms for each chapter are recapped to tie concepts together.
- *Walking Tour*. The “Walking Tour” section provides a narrative summary of the chapter and incorporates questions on key points. Answers are given in the margin.
- *Hands On*. Geographical and numerical exercises clarify concepts and better prepare students for tests and quizzes.
- *Economics in the News*. A news item illustrates how concepts covered in the chapter can appear in the real world. Questions and answers reinforce the concepts.
- *Questions for Review*. These questions and answers follow the key chapter concepts, preparing students for the self-test.
- *Self-Test*. Extra test preparation increases a student's understanding and ability to succeed.
- *Careers in Economics*. Formerly an appendix in the text, this material provides students with an understanding of where the study of economics could lead them.

Online Student Tutorial

Created to support and enhance the student's comprehension of the economic principles discussed in the textbook. The online tutorial includes chapters objectives and study questions. To access the tutorial please visit our Students section on our Web site www.htpublishing.com. Username: Economics Password: DolanLindsey

About the Authors

PROF. KISHORE G. KULKARNI has been teaching in Economics Department at the Metropolitan State College of Denver for numerous years. He has taught on a visiting (or Adjunct) basis at the University of Colorado-Boulder, Colorado School of Mines and University of Denver. After being a top ranked student in B.A. and M.A. degrees at the University of Poona, (India), he completed M.A. and Ph.D. degrees from University of Pittsburgh. He has received several awards including Distinguished Service to the College, Outstanding Teacher, Outstanding Researcher/Scholar and Outstanding Contributions to the Professional Development (8 times) from different institutions. An author of 4 other books and 75 journal articles, Prof. Kulkarni enjoys teaching and research. His unending love for the profession makes his classes exciting, rewarding and entertaining. He has taught on the Semester at Sea Program as well as visited several other countries on research missions.

EDWIN G. DOLAN was born in Oklahoma and grew up in a small town in Oregon. He attended Earlham College and Indiana University, where he majored in Russian Studies and received the Certificate of Indiana University's famed Russian and East-European Institute. After earning a doctorate in economics from Yale University, he taught at Dartmouth College, the University of Chicago, George Mason University and Gettysburg College. In 1990, he began teaching in Moscow, Russia, where he and his wife founded the American Institute of Business and Economics, an independent, not-for-profit MBA program. Since retiring as President of that institution in 2001, he has lectured on global macroeconomics and managerial economics in Riga, Latvia; Budapest, Hungary; and Zagreb, Croatia. When not lecturing abroad, he makes his home in Washington's San Juan Islands.
